

EPHAR 2021 - PRELIMINARY CONGRESS PROGRAMME

Monday Dec 6, 2021					
	Hall 1	Hall 2	Hall 3	Hall 4	Hall 5
	Opening 09:00-09:20				
9:20	Plenary lecture M Spedding				
	Break 10:30-10:50				
10:50	NS 5 GeneTherapy/Somatic Cell - Therapy – academic Research and development	NS 1 WNT signaling as a novel therapeutic target	NS2 Systems Pharmacology – the future directions of drug development	S3 Pharmacogenomics	NS 16 Molecular basis of highly prevalent diseases. Advances in Pharmacology and Drug delivery
12:20	Break 12:20-12:40				
13:40	Plenary Lecture Prof. Amrita Ahluwalia				
	Break + posters 13:40-14:40				
14:40	S7 Immunopharmacology	NS6 Cardiac failure – mechanisms, pharmacology, challenges	NS4 The role of hydrogen sulfide pathways in health and disease (Italian Society)	NS 3 Osteoarthritis – state of the art of pharmacological treatment	S10 Advances in diabetes treatment
16:10	Break 16:10-16:30				
17:30	Plenary lecture 1 Jeff Idle				
Tuesday Dec 7, 2021					
	Hall 1	Hall 2	Hall 3	Hall 4	Hall 5
9:00	Plenary lecture 2 Harald Enzmann: Title				
	Break 10:00-10:20				
10:20	S12 Metabolomics	Therapeutic drug monitoring in clinical practice	S16 Pharmacomicrobiomics	NS10 Treatment of migraine, mechanisms, pharmacology, challenges	
11:50	Break 11:50-12:10				
12:10	EPHAR Lecture 1+2				
13:25	Break + posters 13:25-14:25				
14:25	S14 Recent advances in pharmacological strategies to control respiratory diseases: from animal models to human therapy	NS 18 Academic Clinical Trials and Research in Europe	NS 11 Paradigm shifts in cardiac safety testing of drugs		NS 7 Ion channel structure: implications for function, pharmacology and disease
15:55	Break 15:55-16:15				
16:15	NS 9 Ca2+ channels as new therapeutic targets	NS12 Astrocytes in the CNS pharmacology	NS 17 Novel targets for the inhibition of neuro-immune-vascular interactions in the CNS and the periphery	S9 IFAPP Professionalism in Medicines Development	S1 Developmental and pediatric pharmacology
17:45	Break 17:45-18:05				
18:05	EPHAR council meeting				
19:05					

Wednesday Dec 8,2020

	Hall 1	Hall 2	Hall 3	Hall 4	Hall 5
9:00	Plenary lecture 3 Achilleas Gravanis				
Break 10:00-10:20					
10:20	S18 Pharmacometrics	S19 Novel approaches in cancer treatment	NS 15 Advanced drug delivery	NS 14 IUPHAR	
11:50	Break 11:50-12:10				
12:10	Plenary lecture 4 ZDRAVKO LACKOVIC				
Break + posters 13:10-14:10					
13:10					
14:10	NS20 Pharmacogenomics – A Promising Tool in Precision Medicine	S21 EPHAR-EACPT	NS 13 Molecular and cellular determinants of pain	COVID 19 TBC	NS8 Hot, cold and spicy: TRP channels as drug targets
15:40	Break 15:40-16:00				
16:00	S12 Regulation of drug metabolism	S23 Development of fully personalized therapy	NS 19 Pharmacology competences for antimicrobial stewardship	S5 Pharmacology of oxidative stress	Recent advances in cannabinoid pharmacology: From Bench to Bedside
17:30	Break 17:30-17:50				
17:50	Closing				
18:50					

	Main area
	clinical/translational
	experimental
	regulatory/other
	education
